**Dresser Waukesha's APG2000/3000 Enginator®
Honored with Governor's New Product Award**

WAUKESHA, Wis. -- Dresser Waukesha's APG2000/3000 Enginator® genset has been named one of Wisconsin's Best New Products in the 37th annual Governor's New Products Awards (GNPA) program.

The APG 2000/3000 was awarded a second place in the large company category. The entry showcased these large, engine-driven power generation units, capable producing two or three MW of electricity each, for their high efficiency and low emissions, and suitability for the world power generation market.

"Winning this award is an important step for Dresser Waukesha," said Corey Honl, P.E. Sr. Development Engineer who created the entry. "This engine is far more advanced than other engines produced at Waukesha or by other manufacturers in the state," he said. "It shows what can be done with state resources including state-educated engineers and Wisconsin-based suppliers and consultants. This is the basis of the competition itself."

In announcing the winners, Gov. Jim Doyle said: "These Wisconsin manufacturers contribute to the state's economic growth through the development, manufacturing and marketing of new and innovative products and I want to congratulate them on their outstanding new products."

The GNPA is sponsored by the Wisconsin Society of Professional Engineers with support from the Governor's Office. It focuses on emerging technologies, recognizes the contribution of engineers in new product development and encourages the pursuit of science and engineering careers.

About Dresser Waukesha

Founded in Waukesha, Wis. in 1906, Dresser Waukesha, a business unit of Dresser, Inc., is a manufacturer of spark-ignited, gaseous-fueled engines widely used in power generation, field gas compression and other mechanical drive applications. Waukesha also packages Enginator® gensets and DC switchgear controls for the distributed generation market. Waukesha's manufacturing facility, located in Waukesha, is ISO 9001 certified. The company's Web site is www.waukeshaengine.dresser.com.
