Waukesha Engine Awards Additional Territory to Distributor Kraft Power Corporation

WAUKESHA, Wis. – Waukesha Engine, a business unit of Dresser, Inc. recently awarded additional territory in the upper Midwest – eastern and central Wisconsin, northeastern Illinois, Michigan, and most of Indiana – to Kraft Power Corporation of Woburn, Mass.

Kraft Power, a Waukesha distributor for more than 40 years, is adding two new complete sales, parts and service facilities – one in Illinois and the other in Michigan – to meet the needs of Waukesha customers in its new territory. In addition, Kraft Power has built a new 33,000 sq. ft. sales and service facility in Massillon, Ohio where it will centralize its Midwest parts operation and certified Waukesha Engine overhauls.

“We’re pleased to have Kraft Power as Waukesha Engine’s representative in these areas,” said Frankie Baird, director of distributor network excellence for Waukesha Engine. “We have had a long relationship with Kraft Power during which the company has demonstrated a strong customer-centric focus. The latest example is the new Massillon facility, which is strategically located so that our customers in their territory can receive Waukesha products within 24 hours.”

About Kraft Power Corporation

Kraft Power Corporation provides engineering support, equipment, system integration and after-sale service and parts for emergency power generation systems; electrical and mechanical power services for oil and gas production and transportation; electrical generation and cogeneration with reciprocating engines; diesel engines; natural gas, biogas and landfill-gas systems; rental power, and power transmission equipment. In addition to its new locations in Illinois, Michigan and Ohio, the company has regional branches in New York, New Jersey, Pennsylvania, North Carolina and Georgia. Kraft Power was established in 1965 and is headquartered in Woburn, Massachusetts.
